

MEMBER BULLETIN

HOW MHC IS HELPING

At MHC, we take the health and safety of members and providers very seriously. As the novel Coronavirus (COVID-19) outbreak evolves, MHC continues to closely monitor information from the World Health Organization (WHO), U.S. Centers for Disease Control and Prevention (CDC), and the individual state departments of health.

MHC continues to operate as usual. Our team is equipped to work remotely with no disruption in service so we can provide you and your dependents the assistance and continuity of care you need. For more information, call MHC at 800-255-3081 to speak to a case manager.

Telehealth Services

To ensure timely, accessible, and safe appointments during this public health crisis, MHC and our preferred providers can provide telehealth services to all covered members and dependents.

By offering telehealth services we aim to prioritize your health and to reduce the risk of community exposure, ensuring that you receive quality clinical care to meet your behavioral health needs.

The same services that are provided in a face-to-face therapy session can be offered via telehealth at no additional cost.

Contact an MHC Case Manager for more details about telehealth.

HERE'S WHAT YOU CAN DO:

Speak to an MHC Case Manager by Phone

Request Information Through the MHC Website

Inquire About Telehealth with Your Current MHC Provider

Schedule a Telehealth Session with a MHC Provider

Request Informational Resources
