

# SHOULD I GET LUNG CANCER SCREENING?

LOCAL 22 PHILADELPHIA FIREFIGHTERS AND PARAMEDICS HEALTH PLAN

Lung cancer is the #1 cause of cancer-related death in the U.S. When cancer is caught in its early stages, it's more likely to be treated effectively. That's why lung cancer screening is so important.

**You may be eligible for lung cancer screening if you:\***

**Are between the ages of 50 and 80**

**Have a history of more than 20 pack years of smoking**

**Are a current smoker or have quit smoking within the last 15 years**

\* Eligible members of the Local 22 Philadelphia Firefighters and Paramedics Health Plan do not need to meet this age or smoking history criteria.

**To schedule a lung cancer screening call 800-TEMPLE-MED**

Temple Health refers to the health, education and research activities carried out by the affiliates of Temple University Health System (TUHS) and by the Lewis Katz School of Medicine at Temple University. TUHS neither provides nor controls the provision of health care. All health care is provided by its member organizations or independent health care providers affiliated with TUHS member organizations. Each TUHS member organization is owned and operated pursuant to its governing documents.

Non-discrimination notice:

It is the policy of Fox Chase Cancer Center and Temple University Hospital, Inc., that no one shall be excluded from or denied the benefits of or participation in the delivery of quality medical care on the basis of race, ethnicity, religion, sexual orientation, gender, gender identity/expression, disability, age, ancestry, color, national origin, physical ability, level of education, or source of payment.
